

I listen to Air1 on 90.1 in Chino Hills. It is a daily inspiration to me and my family. I think it would hurt my community of Air1 were no longer available because it was displaced by LPFM providing other programming (which most likely would not be faith-based or family friendly). It is in the public interest to have Air1 stay on the airwaves, it helps people to lead better lives and be better people. Please keep Air1 on the radio -- it's the only station I will listen to with my family because it sends Jesus' word and is not filthy like most other stations. The world needs Air1! Thank you very much.
